

34th Global Foundry Sourcing Conference 2025

2025 第 34 届 FSC 跨国铸件采购大会

October 23, 2025 Suzhou, China

Organizers:

Foundry-Suppliers.Com (FSC)

Suppliers China Co., Ltd. (SC)

Co-sponsor:

Qingdao Casting Sourcing Co., Ltd.

Supporting Media:

FOUNDRY, China Foundry (English Edition), Special Casting & Nonferrous Alloys, FOUNDRY TECHNOLOGY, China Foundry Machinery & Technology, Foundry Equipment & Technology, ICME, MMR, Foundry-Planet, Metal Bulletin, Romanian Foundry Technical Association, SLOVENIAN FOUNDRYMEN SOCIETY, FOUNDRY magazine, Metal Casting Technologies, Fundidores, Foundry Gate, Casting Area, Foundry Management & Technology, Middle East Steel Magazine, Turkish Foundry Industry International Journal of Cast Metals Research, Made-From-India.com...

Conference Purpose: To establish a communication and trading platform for global casting purchasers and Chinese casting suppliers.

Event Preview: 35th Global Foundry Sourcing Conference 2026
April, 2026 Shanghai China

Website: <http://castings.foundry.cn>

Conference Characteristics

- **Specialty:** Focusing on castings;
- **Internationalism:** The buyers are mainly companies from North America, West Europe, Japan, Korea, and domestic manufacturers with large purchasing quantities. FSC has already provided services for over 90 Fortune Global 500 companies, and suppliers who operate factories all over the world.
- **Targeted services:** FSC invites suppliers based on the requirements of buyers and even proactively recommends qualified suppliers to buyers ahead of the conference, facilitating early connections and interactions between them;
- **Reliability:** FSC rigorously evaluates the information provided by both suppliers and buyers to guarantee secure transactions;
- **Facilitating contract signing:** Presentations on purchasing, product promotions, and negotiations will facilitate mutual understanding between buyers and suppliers, thereby aiding in achieving the objective of contract signing;
- **Interactivity:** FSC is dedicated to facilitating casting transactions by establishing an integrated purchasing platform, both online and offline. In addition to amassing information from over 3,000 Chinese casting suppliers, encompassing product specifications, standard certifications, casting techniques, manufacturing capabilities, and annual output, our online platform (www.foundry-suppliers.com) provides comprehensive details on purchasing blueprints, manufacturing requirements, and contact information for international casting purchasers. This initiative aims to foster seamless online trading experiences for both suppliers and purchasers.

At the FSC, you will find that

- ※ most of the suppliers have obtained ISO/QS/TS certification or incorporated QC/QA procedures;
- ※ most of the suppliers operate casting factories, and understand product drawings and specifications in English;
- ※ most of the suppliers have experience supplying casting products to one or more of the world's top 500 companies;
- ※ most of the suppliers are cable of providing high-quality products and ensuring delivery time;
- ※ you can learn the latest industry information in China;
- ※ SC has a deep understanding of the China foundry market, and is committed to promptly addressing your casting procurement needs.
- ※ FSC is the premier choice for sourcing diverse castings in China.
- ※ relying on the China Foundry Suppliers Database, FSC can deliver even higher-quality services through its e-commerce casting information exchange platform (www.foundry-suppliers.com).

Range of Products**Castings:**

Iron, steel and nonferrous metals castings manufactured with various casting processes such as sand casting, precision casting, and die casting for a wide range of industries such as automobiles, tooling, shipping, engineering machinery, rail transportation, heavy machinery, mining machinery, textile machinery, and printing machinery; castings employed in the power transmission industry, hardware production, piping and valve systems, as well as municipal engineering projects.

Casting-related products:

Companies offering casting materials, equipment, instruments, software, and machine processing services, as well as support services such as banking, insurance, import and export facilitation, logistics, certification, and agency services.

www.foundry-suppliers.com - A professional e-commerce exchange platform

FSC's Global Foundry Purchaser Database stands as one of the premier platforms for casting suppliers. It encompasses essential details such as annual purchasing value, procurement timelines of regular buyers, technical drawings, and contact information, providing comprehensive insights for effective business connections.
