Conference Purpose: To establish a communication and trading platform for global casting purchasers and Chinese casting suppliers.

Recommendation event:

FSC Industrial Parts Sourcing Conference 2017

Date: Nov.1st, 2017 *Venue:* Shanghai New International Expo Centre

Conference Preview:

22nd Global Foundry Sourcing Conference 2018

Date: April, 2018 *Venue:* Shanghai, China

Website: <http://castings.foundry.cn>

Conference Characteristics

- **Specialty:** Focusing on castings;
- **Internationalism:** The buyers are mainly from North America, West Europe, Japan, Korea, as well as domestic manufacturers with large purchasing quantities, etc. FSC has already served for over 90 World Top 500 enterprises; the attended suppliers have factories all over the world.
- **Targeted service:** At the request of buyers, SC will invite appropriate or assigned suppliers, and help buyers establish business relationship with suppliers before the conference;
- **Reliability:** All the information about suppliers and buyers will be strictly examined by SC;
- **Feasibility of trade agreements:** Purchasing presentation, products promotion and negotiation will help facilitate a better understanding between buyers and suppliers, and the goal of the trade agreement will then be realized;
- **Interactivity:** SC will assist you in operating casting transaction with the aim of creating a purchasing platform both online and offline. Apart from having collected information of over 3,000 Chinese casting suppliers, orientation of products, standard authentication, casting technology, manufacturing capacity and annual output included, etc., our online platform –www.Foundry-Suppliers.Com also contains detailed information regarding purchasing blueprint/drawing papers, manufacturing requirements and contact information of transnational casting purchasers, to promote online trading for both suppliers and purchasers.

At the FSC, you will find:

- ※ Most suppliers have passed ISO/QS/TS certificate or QC/QA process and understand products' drawings and requirements in English;
- ※ High-qualified suppliers own casting factories;
- ※ Most suppliers provide one or more world top 500 companies with casting products;
- ※ Provide good quality products and guarantee delivery time;
- ※ Learn more about industry information;
- ※ SC has a better understanding of China foundry market, and will response to your castings purchasing demands at any time under the philosophy of faster under marketization.
- ※ FSC is the best trading platform providing you with various kinds of castings in China.
- ※ Based on China Foundry Suppliers Database, FSC has established the professional online trading platform—www.Foundry-Suppliers.Com to offer better service.

Products List

Castings: gray iron, ductile iron, malleable cast iron, compacted graphite cast iron, alloy cast iron, alloy steel, carbon steel, high temperature alloy, magnesium alloy, aluminum alloy, textile machinery, printing machinery, general machinery, zinc alloy, copper alloy castings, automobile, machine tools, marine industry, engineering machinery, rail transportation, heavy machinery, mining machinery, transmission and distribution castings, chemical engineering, hardware tools, pipe, valve and municipal engineering parts, etc.

Related casting equipment:

Enterprises of casting materials, equipment, instruments, software, machine processing, service mechanism like bank, insurance, import and export, logistics, certification, agency

A professional e-commerce exchange platform -- www.foundry-suppliers.com

Global foundry purchasers' database, collected by FSC (www.foundry-suppliers.com), is among the best platforms for casting suppliers. It includes annual purchasing value, timetable of normal purchases, technical drawing and contact, etc.
