

**Conference Name:**

26th Global Foundry Sourcing Conference 2020

Conference Schedule:

2020.09.22 Registration

2020.09.23 Purchasers' and suppliers' presentations in the morning

2020.09.23 Negotiations between purchasers and suppliers in the afternoon

Conference Venue:

Qingdao Grand Regency Hotel, China

No.110 Hong Kong Road, Qingdao, Shandong, China

Conference Purpose:

Platform for offline communications, negotiations and trade between international foundry purchasers and Chinese suppliers

Conference Form:

Suppliers participate and display their samples
Purchasers hold purchasing presentations, and negotiate with suppliers face to face

Online Platform:

Foundry-Suppliers.Com – Professional online platform for casting suppliers and purchasers

Official website: www.foundry-suppliers.com

Sponsor Contact:**Suppliers China Co., Ltd. (SC)**

Address: Room 106, Building 4, Science & Tech.

Mansion, 41 Jilin Road, Qingdao 266012, China

会议名称:

2020 第 26 届 FSC 采购洽谈会暨铸件采购大会

日程安排:

2020.09.22 全天报到

2020.09.23 上午 举办采购说明会、产品推介会

2020.09.23 下午 供需双方面对面直接交流洽谈

举办地点:

中国 青岛 丽晶大酒店 (★★★★★)

中国 青岛 香港中路 110 号

会议目的:

搭建跨国铸件采购商与铸件供应商之间
良好的线下交流、洽谈、贸易平台

举办形式:

供应商参会、参展作样品展示;

采购商举办专场采购说明会,设洽谈桌与供应商面对面自由交流、洽谈

网络平台:

FSC 跨国铸造采购平台

Main Products: Bronze castings、Aluminum castings、Stainless steel castings、iron castings、Machining and Assembly, etc**Advantages:**

1. Copper-nickel and bronze castings for window and door's industries, such as handles、pedestal、Nickel cupronickel hardware, etc;
2. Casting、machining and assembly for the parts of large oil tank trucks;
3. Stainless steel and copper alloy pump and valves, such as pump body、valve body、joints、propellers、corrosion resistant pump covers, etc;

Materials: Bronze、Aluminum、Stainless steel**Application Field:** Valves、Pump industries、Motor vehicle、Windows and Door's Industry、Water Treatment Industry;**Casting Process:** Sand castings、Investment casting、Permanent mold casting**Single Unit Weight:** from 0.01 kg to 200 kg**Single Unit Specification:** from 0.5 cm to 100 cm**Machining Capability:** Machining Centre; CNC laths; Milling Machine; Drilling Machine; CMM inspection tool**Heat Treatment:** Have this ability**International Certification(s):** ISO9001**Founded Time:** 2003**Registered Capital:** ¥0.5 million**Land Area:** 8,500 m²**Annual Sales:** ¥23 millions**The number of all the staff:** 90 (2020)**Representative Clients:** GE

Since 2003, Wing Kam has been manufacturing high quality, customer-designed, various alloy casting products, ranging in bronze、aluminum、stainless steel & grey iron. The casting process includes sand castings、investment casting、permanent mold casting. The casting sizes are from very simple parts to fully machined & fabricated assemblies. We own one foundry & the machining shop in North of China. Our customers are all over the world. Some are the ones of world 500 largest companies. **We specialize in manufacturing metal parts for following industries:** Valves, Pump industries; Equipment or machinery manufacturer, mainly Water Treatment Industry; Window and Door's industry; Tank Truck Manufacturers and Service Station Industry; Other industries that need metal components to be manufactured from their designed drawings.

The company, a wholly-owned subsidiary of XCMG, is a "world-class, green, intelligent and high-end parts industrial base" that XCMG has invested 1.5 billion RMB to build to strengthen the layout of the high-end technology industrial chain. The project is divided into two phases: the first phase is a cast iron project, in which three imported cast iron modeling lines, namely, horizontal box-removal modeling line, vertical box-less modeling line and static pressure modeling line, will be constructed, with an annual capacity of 90,000 tons. The annual capacity is 30,000 tons. The whole is equipped with imported sand treatment system, medium frequency induction furnace, AGV automatic transfer equipment, intelligent unit for cold (hot) core manufacturing, 3D printer, spectral analyzer, shot blasting equipment, heat treatment furnace, robot grinding unit, coating line, CNC machining center, automatic three-dimensional warehouse and other equipment.
